

ELECTRONICS CATALOGUE

MAY 2018

An aerial photograph of a speedboat moving across the ocean, leaving a large, circular, white wake behind it. The boat is small and white with a dark stripe, positioned at the bottom of the frame. The wake is a thick, white, foamy ring that expands as it moves away from the boat. The water is a deep, dark blue.

GARMIN ECHOMAP PLUS GPS

NEW

ECHOMAP PLUS color cartographic chartplotter, integrated Gps/GLONASS 5 Hz high sensitivity antenna, tide tables, NMEA 2000 interface (except for model SYGMAP42CVP, equipped with NMEA 0183 interface).

Moreover, thanks to its Quickdraw Contours, it allows to track and memorize in total autonomy and in real time up to 1000 km² of HD bathymetrics every 30 cm; these new data is readily available and can be shared for free with friends and fellow fishermen. ECHOMAP PLUS GPSs (except for model SYGMAP42CVP) are also equipped with Wi-Fi® technology to use the ActiveCaptain™ free app, which lets you connect your gps to the mobile network and access a new world of content, putting to full use your Garmin Marine instrumentation installed on board.

Supplied with micro SD card slot, mounting bracket, power and data cable, Italian and multilingual software, user's manual.

Compatible with:

- AIS, DSC (all models)

- Fusion systems (except for model SYGMAP42CVP)

Chartplotter with integrated black box so it is sufficient to add the transducer to turn it to a fishfinder/chartplotter.

Optional Garmin BlueChart G2 HD or G2 Vision HD MicroSD/SD cartography.

ACCESSORIES FOR GARMIN GPS-CHARTPLOTTER

RADOME GMR18 HD+ - GMR18 XHD - GMR24 XHD RADAR

Radome radar 4 kw Min 20 m - Max 48 nm. Complete with 15 mt cable.

GMR 18 HD+ and GMR 18 xHD RADAR:

Horizontal Beam width 5,2°, vertical 25°.

Diameter 50,8 cm - height 24,8 cm - weight 7,7 Kg.

GMR 24 xHD RADAR:

Horizontal Beam width 3,7°, vertical 25°.

Diameter 64,5 cm - height 24,9 cm - weight 9,5 Kg.

CODE	DESCRIPTION	VAT EXCLUDED €
SYGGMR18HD	Radome GMR 18 HD+ high definition 36 Nm radar	1.310,66
SYGGMR18XHD	Radome GMR 18 xHD high definition 48 Nm radar	1.638,52
SYGGMR24XHD	Radome GMR 24 xHD high definition 48 Nm radar	2.130,33

RADOME GMR 18 - 24 FANTOM RADAR

Radome GMR Phantom radar 40 W solid-state includes MotionScope™ technology uses the Doppler effect to detect and highlight moving targets to help avoid collisions and to track weather. Pulse Compression technology provides high resolution while maximising energy in order to enhance detection and identification of targets. Lastly Pulse Expansion technology maximises target size to help differentiate real targets from noise and provides a visually larger sized target on the chartplotter and Dual Range is capable of providing split screen images side-by-side with independent range setting simultaneously. Thanks to these technologies you get excellent close - and long - range target detection, ranging from as close as 6 meters to 48 nautical miles.

GMR 18 Phantom Radar Diameter 50,8 cm - height 24,8 cm - weight 7,7 kg.

GMR 24 Phantom Radar Diameter 64,5 cm - height 24,9 cm - weight 9,5 kg.

CODE	DESCRIPTION	VAT EXCLUDED €
SYGGMRFNT18	Radome 18 Phantom 48 Nm - 40 W Radar	1.966,39
SYGGMRFNT24	Radome 24 Phantom 48 Nm - 40 W Radar	2.376,23

GMR FANTOM OPEN ARRAY RADAR

Open Array GMR Phantom radar 40 W solid-state features MotionScope™ technology uses the Doppler effect to detect and highlight moving targets to help avoid collisions and to track weather. Pulse Compression technology provides high resolution while maximising energy in order to enhance detection and identification of targets. Lastly Pulse Expansion technology maximises target size to help differentiate real targets from noise and provides a visually larger sized target on the chartplotter and Dual Range is capable of providing split screen images side-by-side with independent range setting simultaneously. Thanks to these technologies you get excellent close- and long-range target detection, ranging from as close as 6 meters to 72 nautical miles. N.B.: it must be necessary composed of radar + pedestal.

CODE	DESCRIPTION	VAT EXCLUDED €
SYGGMRFNT4	Open array 4 ft Phantom 40W - 72 Nm radar (requires pedestal)	654,92
SYGGMRFNT6	Open array 6 ft Phantom 40W - 72 Nm radar (requires pedestal)	1.228,69
SYGGMRB40	Pedestal 40W -72 nm	6.475,41

BLACK BOX GARMIN GSD26 SONAR MODULE

Black Box GSD26, compatible with CHIRP transducers with max transmit power up to 3 kW, scanning on multiple frequencies simultaneously, and with a variable cone beam, providing a maximum precision in data-reading with unrivaled target separation at far greater depths. Frequencies 25 - 210 kHz Power input 10-35 V

CODE	DESCRIPTION	VAT EXCLUDED €
SYGGSD26	Black Box GARMIN GSD26 sonar module	1.228,69

BLACK BOX GARMIN GSD24 SONAR MODULE

Digital Black Box sonar module, power from 600 W to 2000 W RMS (according to the transducer), dual frequency 50/200 kHz, without transducer, IPX7 waterproof. 10-35 Vdc voltage.

CODE	DESCRIPTION	VAT EXCLUDED €
SYGGSD24	Black Box GARMIN GSD24 sonar module	450,00

GARMIN FISHFINDER/PLOTTERS

GARMIN ECHOMAP PLUS 42CV COMBO

ECHOMAP PLUS color cartographic Fishfinder/Chartplotter (4,3" WQVGA 480x272 pixel display), equipped with traditional technology and CHIRP, to analyze the seabed, show the presence of fish below the boat in real time and mark the spots where the fish are biting so you can easily return there. Equipped with integrated Gps/GLONASS 5 Hz high sensitivity antenna, tide tables, NMEA 0183 interface. More over, thanks to its Quickdraw Contours, it allows to track and memorize in total autonomy and in real time up to 1000 km² of HD bathymetrics every 30 cm; these new data is readily available and can be shared for free with friends and fellow fishermen.

Equipped with GT20-TM (77/200 - 455/800 kHz) transom mount transducer which combines the HD-ID™ technology of the traditional fishfinder with the ClearVü function for a high definition view of objects and fish; max power output 4000 W (peak to peak), 500 W RMS, micro SD card slot, mounting bracket, power and data cable, Italian and multilingual software, user's manual. Compatible with AIS, DSC.

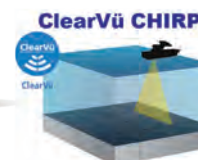

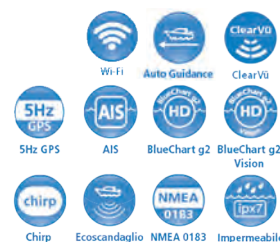

Depth up to 700* m approximately (fresh water).

Depth up to 335* m approximately (salt water).

*Maximum depth reachable depends on sea bottom, on water physical-chemical properties and other factors.

Optional Garmin BlueChart G2 HD or G2 Vision HD MicroSD/SD cartography.

NEW

More over, thanks to its Quickdraw Contours, it allows to track and memorize in total autonomy and in real time up to 1000 km² of HD bathymetrics every 30 cm; these new data is readily available and can be shared for free with friends and fellow fishermen. ECHOMAP PLUS is also equipped with Wi-Fi® to use the ActiveCaptain™ free app, which lets you connect your gps to the mobile network and access a new world of content, putting to full use your Garmin Marine Instrumentation installed on board. Equipped with GT52-TM (150/240 - 455/800 kHz CHIRP) transom mount transducer which combines the HD-ID™ technology of the traditional fishfinder with the ClearVü/SideVü function for a high definition view of objects and fish; max power output 4000 W (peak to peak), 500 W RMS, micro SD card slot, mounting bracket, power and data cable, Italian and multilingual software, user's manual.

Compatible with AIS, DSC, Panoptix™ and Fusion systems.

Depth up to:
700 m approximately* (fresh water).
335 m approximately* (salt water).

*Maximum depth reachable depends on sea bottom, on water physical-chemical properties and other factors.

Optional Garmin BlueChart G2 HD or G2 Vision HD MicroSD/SD cartography.

NEW

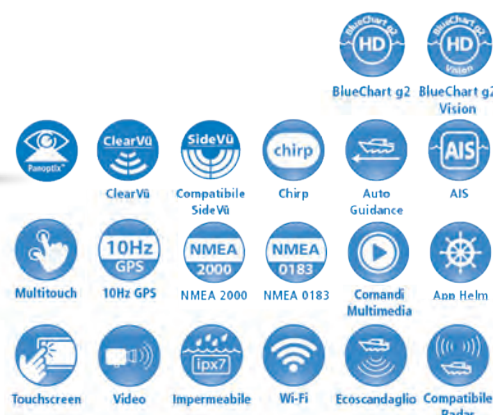

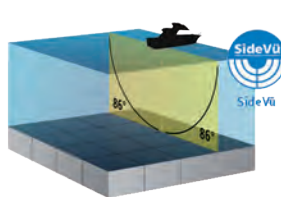

ClearVü CHIRP

Tradizionale

SideVü CHIRP

GPSMAP cartographic Fishfinder/Chartplotter with Multi-Touch color display, high sensitivity internal antenna, world basemap, wireless connection through Wi-Fi or Bluetooth with the possibility to transfer routes with BlueChart Mobile (optional) in wireless mode for iPhone and iPad, Virb action-cams, and use Garmin Apps. NMEA 2000 and NMEA 0183 interfaces, sonar recording function. External black-box needed for the SideVü vision (optional).

Supplied with CHIRP ClearVü (435-475, 800-840 kHz) ALL-IN-ONE GT20-TM depth/temp. transom mount transducer (77/200 kHz), micro SD card double slot, mounting bracket, power and data cable, protective cover, Italian and multilingual software, user's manual.

Gps/GLONASS 10 Hz integrated receiver.

Supports Garmin Marine Network, Radar Garmin, Panoptix™, autopilot, videocameras, AIS, DSC, GSD, GCV, Quatix and compatible Fusion audio systems.

Depth up to:

228 m approx* (ClearVü 435/475 kHz).

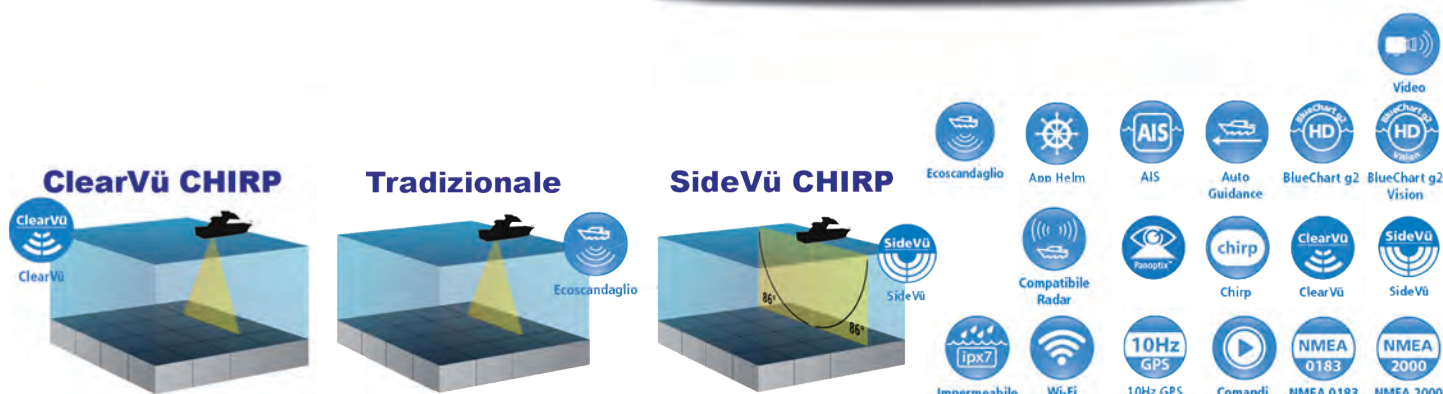

579 m approx* (with transducer 77/200 kHz).

*Maximum depth reachable depends on sea bottom, on water physical-chemical properties and other factors.

Optional Garmin BlueChart G2 HD or G2 Vision HD MicroSD/SD cartography.

GARMIN FISHFINDERS

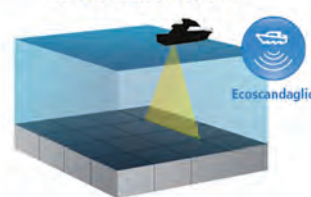

GARMIN STRIKER PLUS SERIES FISHFINDER

ClearVü CHIRP

Tradizionale

NEW

STRIKER PLUS Fishfinder with color display, equipped with traditional technology and CHIRP, to analyze the seabed, show the presence of fish below the boat in real time and mark the spots where the fish are biting so you can easily return there. Equipped with integrated 5 Hz GPS receiver showing boat speed and leeway information when fishing.

More over, thanks to its Quickdraw Contours, it allows to track and memorize in total autonomy and in real time up to 1000 km² of HD bathymetrics every 30 cm; these new data is readily available and can be shared for free with friends and fellow fishermen. STRIKER PLUS 7CV is also equipped with Wi-Fi® to use the ActiveCaptain™ free app, which lets you connect your gps to the mobile network and access a new world of content, putting to full use your Garmin Marine instrumentation installed on board. Equipped with CHIRP transom mount transducer, mounting bracket, power and data cable, Italian and multilingual software, user's manual.

STRIKER PLUS 4: Depth up to 274 mt approximately*

STRIKER PLUS 4CV / 5CV / 7CV Depth up to:

230 m approximately* (ClearVü)

580 m approximately* (with 77/200 kHz transducer)

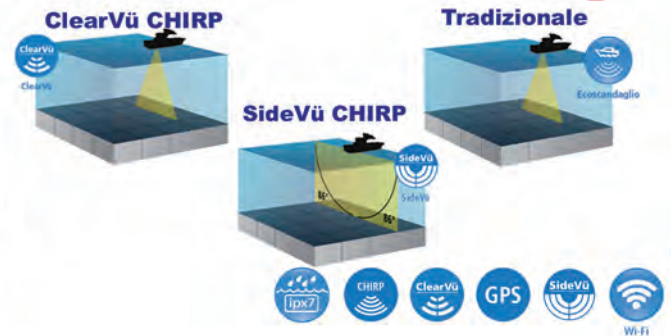

* Maximum depth reachable depends on type of seabed, water physical-chemical properties and other factors.

Not cartographic.

* "seamless" means that the chart allows you to move between maps without interruptions, even if of different scale or supplier.

** "object oriented" means you can pan to an object on the map and instantly view information about that point.

*** roads do not allow to automatically calculate the route on mainland.

LOWRANCE®

ELETRONICA MARINA 2018

LOWRANCE FISHFINDER/PLOTTERS

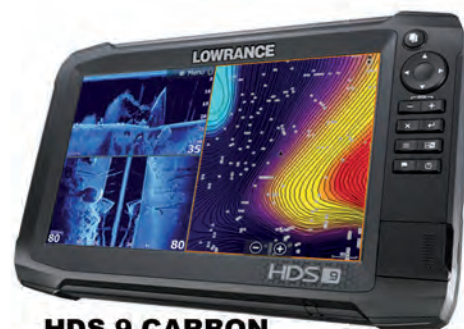

LOWRANCE HDS CARBON TOUCH COMBO

HDS 7 CARBON

HDS 12 CARBON

HDS 9 CARBON

The range of Fishfinders/Chartplotters **multitouch** HDS CARBON represents the evolution of the well known HDS GEN3 series for use both with touchscreen and with keypad (colour LED ultra-bright display, sunlight visible with HD SolarMax technology). Thanks to its dual-core high-performance processor, combines in a faster and powerful way the best fishfinder technologies like CHIRP Dual Network Sounder, Broadband Sounder e Structure Scan 3D ® (optional) to get the best possible view of fish and structure, below and to the sides of your boat. Internal 10 Hz antenna, integrated Broadband Sounder CHIRP module, integrated Wi-Fi GoFree™ module enables to download, upgrade maps, software and apps directly, allows wireless viewing and control of your onboard displays with a smartphone or tablet (IOS – Android), mounting bracket, power cable, NMEA 2000, 0183 and Ethernet interface, dual slot for microSD card, video input, italian and multilingual software, owner's manual.

Supports Lowrance Broadband 3G/4G radars - HD digital - marine audio SonicHub server - Lowrance fuel sensors and autopilot. VHF and AIS integration.

Depth up to:

90 m approx* (DownScan 455/800 kHz).

300 m approx* (with transducer 83/200 kHz).

450 m approx* (with transducer 50/200 kHz).

750 m approx* (with thru hull 1 kW transducer).

* depth capacity depends on sea bottom and other water conditions.

Optional Navionics+ - Platinum+ - C-MAP Max-N and N+ SD cartography.

ACCESSORIES FOR LOWRANCE GPS/FISHFINDER

LOWRANCE 3G-4G RADAR ANTENNAS

New and revolutionary LOWRANCE BROADBAND radar unlike anything else on the recreational boating market. Using solid-state technology, these breakthrough radar solutions provide superior target detection and separation, ease of operation, and a new level of navigational safety to a wide range of boats.

Furthermore the insignificant level of electromagnetic emissions grants a unequalled safe level, allowing the mounting in any position in the boat. Its low power absorption and the lightweight radome, make it ideal also for sailboats.

Horizontal beam width 2,6° - Vertical beam width 25° complete with 10 mt cable.

Antenna's diameter: 48,9 cm.

Works with all LOWRANCE multifunctions HDS Gen2 and HDS Touch CARBON and Gen3 series.

CODE	DESCRIPTION	VAT EXCLUDED €
GN622995	LOWRANCE BROADBAND 3G - 24 Nm radar antenna	1.699,00
GN623000	LOWRANCE BROADBAND 4G - 36 Nm radar antenna	2.199,00

LOWRANCE STRUCTURESCAN 3D MODULE

The innovative StructureScan® 3D module allows anglers to see fish, structure and bottom contour in a stunning three-dimensional view. StructureScan® 3D imaging scans underwater terrain and fish-holding structure to create a high-resolution, 180-degree, three-dimensional view beneath your boat. With this unique imaging view, anglers gain a better understanding of where fish and structure are located in relation to their boat. The picture-like, three-dimensional views are displayed on the Lowrance HDS Gen3 -Carbon series of fishfinders/chartplotters - SIMRAD NSS EVO2 – EVO3 when used in combination with the SideScan 3D Skimmer® transducer and with StructureScan® 3D module.

CODE	DESCRIPTION	VAT EXCLUDED €

SIMRAD COMBOS

SIMRAD GO XSE - XSR TOUCH COMBO

NEW

GO7 XSR

GO12 XSE

GO5 XSE

GO9 XSE

GO XSE and GO XSR Fishfinder/Chartplotter **touchscreen** (Widescreen display, 16:9; WVGA colour TFT LCD, with LED backlighting), high sensitivity internal antenna, NMEA 2000 interface and integrated Wi-Fi GoFree™ module enables to download, upgrade maps, software and apps directly, allows wireless viewing and control of your onboard displays with a smartphone or tablet (IOS – Android). Complete with Med/High CHIRP with DownScan Imaging 83/200-455/800 kHz or TotalScan transducer, quick release adjustable swivel mounting bracket, power cable, protective cover, italian and multilingual software.

Supports VHF, autopilot, sonar ForwardScan™ and can be connected with plug-and-play to Simrad Broadband™ and Halo™ Pulse Compression radar for GO7 XSR, GO9 XSE and GO12 XSE models.

Depth up to:

90 m approx* (DownScan 455/800 kHz).

300 m approx* (with transducer 83/200 kHz).

450 m approx* (with transducer 50/200 kHz).

750 m approx* (with traditional thru hull transducer 1 kW).

* depth capacity depends on sea bottom and other water conditions.

Optional Navionics+ – Platinum+ and C-MAP Max-N+ Micro SD cartography.

ACCESSORIES FOR SIMRAD GPS/FISHFINDER
NEW SIMRAD 3G-4G RADAR ANTENNAS

New and revolutionary SIMRAD BROADBAND radar unlike anything else on the recreational boating market. Using solid-state technology, these breakthrough radar solutions provide superior target detection and separation, ease of operation, and a new level of navigational safety to a wide range of boats.

Furthermore the insignificant level of electromagnetic emissions grants a unequalled safe level, allowing the mounting in any position in the boat. Its low power absorption and the lightweight radome, make it ideal also for sailboats.

Horizontal beam width 2,6° - Vertical beam width 25° complete with 20 mt cable.

Antenna's diameter: 48,9 cm.

Works with all SIMRAD multifunctions Go and NSS EVO 3 series.

CODE	DESCRIPTION	VAT EXCLUDED €

SIMRAD AUTOPILOTS

SIMRAD TP10 - TP22 - TP32 TILLERPILOTS

SIMRAD tillerpilot for tiller-steered sailing yachts, easy to use and to install.

CODE	DESCRIPTION	VAT EXCLUDED €
GN620100	SIMRAD TP10 tiller autopilot (recommended for boats up to 32 ft)	438,90
GN620105	SIMRAD TP22 tiller autopilot - SimNet/NMEA (recommended for boats from 36 to 39 ft)	570,90
GN620110	SIMRAD TP32 tiller autopilot - SimNet/NMEA (recommended for boats of more than 39 ft)	708,40

SIMRAD DRIVEPILOT FOR OUTBOARDS

Drivepilot Pack for an automatic control right from your existing multifunctions display SIMRAD GO, XSE, NSS and NSO evo2. Recommended for outboard hydraulic steering systems with balanced cylinder from 50 up to 180 cc volume. Simrad Drivepilot provides high performances even with difficult sea conditions, thanks to the included rate compass. The pack includes: NAC-1 Autopilot Computer, rate RC42N compass with 5 mt. cable, hydraulic pump type 1, cables and accessories for mounting.

CODE	DESCRIPTION	VAT EXCLUDED €
GN620122	SIMRAD DrivePilot Outboard Autopilot Pack with hydraulic pump and rate compass	1.699,00

ACCESSORIES FOR SIMRAD AUTOPILOTS

SIMRAD WR10 WIRELESS REMOTE CONTROLLER

WR10 remote allows to control any SIMRAD autopilot wherever you are on board or far from the autopilot. Lightweight, compact design and easy to use. Main features: Heading control/dodge in 1° and 10° increments, up to 30m range, complete with waterproof base station.

CODE	DESCRIPTION	VAT EXCLUDED €
GN620120	SIMRAD WR10 wireless remote controller for autopilot	438,90

Laylines on chart

VULCAN 5

VULCAN 9FS

VULCAN 7R

VULCAN 12

VULCAN Fishfinder/Chartplotter **touchscreen** (Widescreen, 16:9 colour WVGA TFT LCD display, with LED backlighting), high sensitivity internal antenna, NMEA 2000 interface, and Wi-Fi GoFree™ integrated module, to download and upgrade maps, softwares and apps directly, view and control your onboard displays in wireless mode with a smartphone or tablet (IOS – Android). Aside from the standard graphic representations, it includes modules dedicated to sailing, with specific functions such as SailSteer™ and SailingTime: through these representations, you can see all information related to wind, with according direction change sectors, layline, speed, compass, and much more. Supplied with quick release adjustable swivel mounting bracket, power cable, protective cover, Italian and multilingual software.

Compatible with VHF, autopilot, ForwardScan™ sonar and **supports plug-and-play connection to Broadband™ radar systems.**

Depth up to:

90 m approx* (DownScan 455/800 kHz).

300 m approx* (with transducer 83/200 kHz).

450 m approx* (with transducer 50/200 kHz).

750 m approx* (with traditional thru hull transducer 1 kW).

* depth capacity depends on sea bottom and other water conditions.

Optional Navionics+ – Platinum+ and C-MAP Max-N+ Micro SD cartography.

RAYMARINE WIRELESS CHIRP QUANTUM RADAR ANTENNA

QUANTUM WIRELESS CHIRP is the next generation of marine radar, new design it weighs 50% less than traditional magnetron radars. **Wi-Fi** or RayNet connections to any multifunction display equipped with Raymarine LightHouse. Setting a new standard for compact solid state radar for safe radiated emissions and substantially reduced power consumption. With exclusive ATX™ advanced target separation technology displays targets like boats, landmarks, rocks, buoys, and weather cells with unsurpassed resolution and separation quality. Equipped with the new CHIRP Pulse compression technology that ensures an excellent short-range detection and enhanced target detail with 6m minimum range. Moreover it ensures more energy reaches each target, resulting in superior imaging on long ranges, identifies small, weak targets, even when positioned close to strong returns.

Power 4 KW – Max scale 24 mn.

Horizontal beam width 4,9"

Vertical beam 20°

Radar's diameter 54,1 cm

Weight 5,6 kg.

Supplied without cable (available upon request 5-10-15-25 mt. cables)

CODE	DESCRIPTION	VAT EXCLUDED €

AUTOPILOTS RAYMARINE

RAYMARINE EVOLUTION AUTOPILOTS

NEW

RAYMARINE EVOLUTION autopilots, with advanced aerospace guidance technology, detect the environment and calculate parameters to guarantee the best performance, with 9-axis precision monitoring of pitch, roll, yaw and heading. Optimal and reliable course keeping, independently from speed or water conditions. Easy to install: EV sensor core can be installed above or below deck. Install upside-down or off the vessel's centre line. No lengthy calibration procedures to perform. No compass calibration required. Plug and play connections.

The EVOLUTION Autopilots package includes: control Head, EV-1 sensor, Autopilot Control Unit (ACU) and drive unit. The drive unit (inboard mechanical/ hydraulic or cockpit mounted) and correct ACU for your vessel is dependent on the steering system and displacement of the vessel itself.

The choice of the most suitable autopilot depends on:

1. Steering system type.
2. If it's an hydraulic system it is necessary to know the volume (cc) of the cylinder to choose the most suitable pump.
3. The boat's dimension and displacement: remember to always take the fully laden displacement weight of your vessel into account (often 20% above the designed displacement).

PACKAGE COMPONENTS							
	MODEL	BOAT	SENSOR EV	POWER UNIT ACU	RUDDER ANGLE	CONTROL UNIT	ACTUATOR
GN625150	EV-100 Power	Engine , hydraulic steering (50-150 cc cylinder volume) **	EV-1	100	not supplied as standard	p70Rs	0,5 Hydraulic pump type
GN625152	Ev-100 Wheel	Sail boats , wheel drive Maximum displacement 7500 kg *	EV-1	100	not supplied as standard	p70s	Wheel actuator
GN625154	EV-100 Tiller	Sail boats , tiller drive Maximum displacement 6000 kg *	EV-1	100	no	p70s	Tiller
GN625156	EV-200 Hydraulic	Engine , hydraulic steering (80-230 cc. cylinder volume) **	EV-1	200	yes	p70Rs	1 Hydraulic pump type
GN625157	EV-150 Hydraulic	Engine , hydraulic steering (80-230 cc. cylinder volume) **	EV-1	150	SI	p70Rs	1 Hydraulic pump type
GN625158	EV-200 Linear	Sail boats , mechanical steering with cables Maximum displacement 11000 kg *	EV-1	200	yes	p70s	Type 1 mechanical linear

* Full load displacement

** Displacement shall not apply to hydraulic steering since the actuator depends on the cylinder volume of the steering.

RAYMARINE REMOVABLE COCKPIT AUTOPILOTS FOR TILLER STEERED YACHTS

RAYMARINE autopilots for sailing boats with tiller drive, are the most sold thanks to performance, reliability and simplicity of use. The LCD backlighting display and intuitive keypad provide safe and easy access. The AutoTack control makes the boat veer leaving your hand free for lines and the AutoSeastate keeps the course with less power consumption. They can be used as independent units or can be connected to a SeaTalk/NMEA GPS.

Raymarine ST1000+ : recommended for boats with displacement up to 3000 kg (6600 lbs)*

Raymarine ST2000+ : recommended for boats with displacement up to 4500 kg (10000 lbs)*

* Remember to always take the fully laden displacement weight of your vessel into account (often 20% above the designed displacement).

ACCESSORIES FOR RAYMARINE AUTOPILOTS

S100 WIRELESS REMOTE CONTROLLER FOR RAYMARINE AUTOPILOTS

The **S100** remote control gives you basic, onboard wireless control of any Raymarine SeaTalk autopilot, even if you're below deck and out of sight of your autopilot. Lightweight and compact for easy handling. Key features: two lines of text, signal strength indicator, out of range of base station warning, powered by 2 AAA alkaline batteries.

CODE	DESCRIPTION	VAT EXCLUDED €
GN625160	RAYMARINE SS100 remote controller for autopilot	415,00

REMOTE CONTROL AND WIRELESS SMARTCONTROLLER

SMARTCONTROLLER is a wireless control that gives you basic, onboard wireless control of any Raymarine SeaTalk autopilot (cannot calibrate autopilot). Moreover it is a wireless instrument repeater which means freedom to monitor vital information when you're on deck or out of site of your instruments. Lightweight and compact for easy handling, the SmartController is a breeze to use thanks to its intuitive interface.

Key features: user - definable pages (1, 2 or 4 text lines and graphics), keylock security and backlit buttons, display local and system alarms.

RAYMARINE DIGITAL AND ANALOGIC INSTRUMENTS

RAYMARINE i40 DIGITAL INSTRUMENTS

Series i40 digital instruments with extra digits (max 28 mm) and razor sharp LCD, red backlighting for improved visibility, have outstanding visibility in all lighting conditions.

For sailing boats, yacht and Ribs with small dimensions, these compact yet powerful SeaTalk instrument displays offer full integration with Raymarine autopilots and navigation equipment and can be surface or trunnion mounted. Connection SeaTalk1 (SeaTalk^{NG} converter included). Dimensions 128 mm x 72 mm.

CODE	DESCRIPTION	VAT EXCLUDED €
GN625000	i40 Speed Pack with thru hull P371 transducer with Speed/Temp	295,00
GN625003	i40 Depth Pack with Depth P7 Thru hull transducer	295,00
GN625005	i40 Bidata Pack with Speed/Temp P371 and Depth P7 thru hull transducers	395,00

GN625029	i50 Tridata digital Display	545,00
GN625033	i60 Wind analogic Display	495,00

RAYMARINE i70s INSTRUMENTS

The new i70 Raymarine colour instrument, with a new Lighthouse user's interface, offers many powerful functions and it is easy to use. The over-sized 4" LCD display (320x240 pixel) with 160° viewing angles and **anti-reflective coating** for improved visibility in bright sunlight is simple to read from any angle and distance.

It can be completely customised according to boat's data with fonts of 43 mm. on widescreen mode: from traditional analog dials to engine information and tank levels, AIS repeater.

It offers the connection with SeaTalk^{NG} and NMEA 2000 network and, with the correspondant transducers, supports the following data views: Wind, Speed, Depth, Tridata, Engine (NMEA 2000), Environmental (NMEA 2000), Fuel (NMEA 2000) and navigation.

Interface SeaTalk1 (converter included STNG).

Dimensions 110 x 115 mm.

¹ Use SonarChart™ Live on mobile to automatically share sonar logs with Navionics.

² Latest firmware release is required to run memory cards over 2 GB.

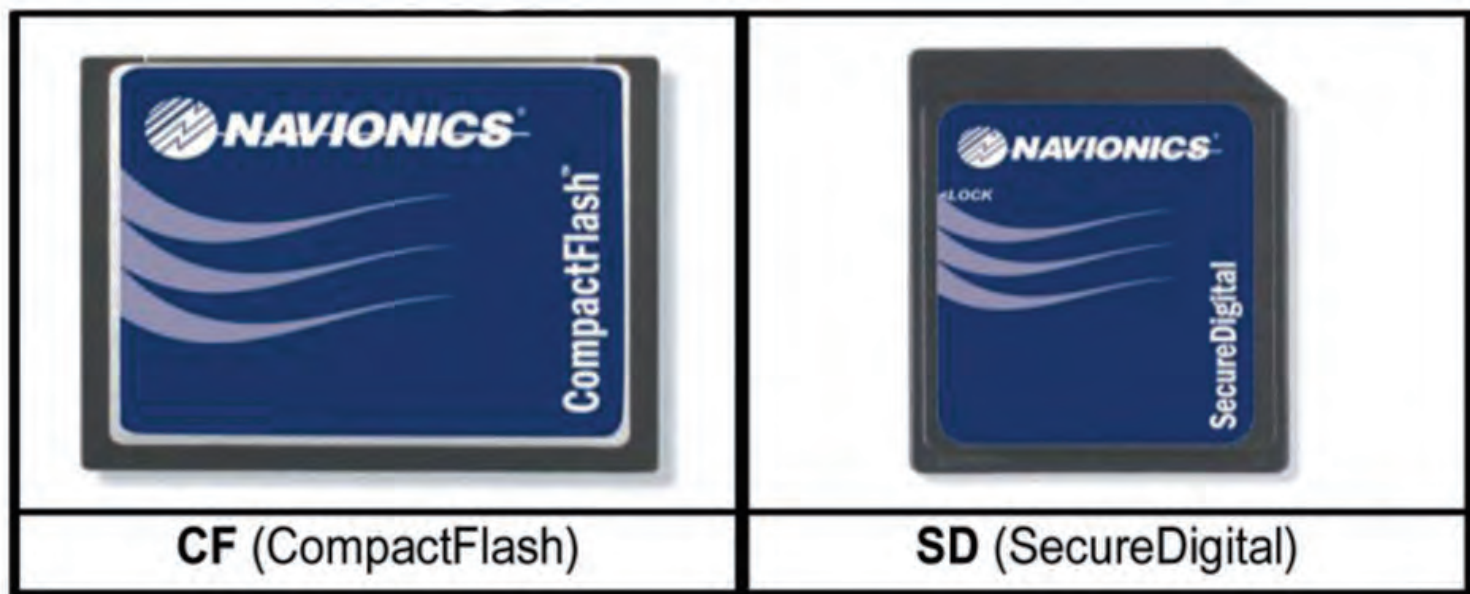

³ Of the Platinum features, Satellite Overlay, Panoramic Photos and Pilot Books are compatible.

Starting from 2013, our products are provided on 2 GB or larger memory cards. Always make sure your GPS chartplotter is compatible. Some GPS chartplotters may be compatible with 2 GB memory cards but may still have difficulty with large file sizes.

ICOM HANDHELD VHF

ICOM IC-M25EURO HANDHELD FLOATING VHF

ICOM IC-M25EURO handheld Vhf IPX7 waterproof and floating with flashing LED light: when dropped in water, even when turned off, a red LED light blinks through the rear panel showing the place of the radio so that it can be easily retrieved. Slim design and lightweight, with a wide display, LCD auto backlighting and battery level indicator. Dual/Tri-Watch and AquaQuake™ draining functions. Supplied with lithium-ion 1500 mAh battery that grants up to **11 hours of operating time**. The IC-M25 has an industry standard Micro-B USB connector and can be charged with the supplied AC adaptor, most third party USB chargers (max 5V/1A) such as cigarette lighters or battery banks for charging smartphones. Complete with battery charger with Micro-B USB interface, belt clip, strap and user's manual.

RF max power 5 W - min 1W.
3 years warranty.

CODE	DESCRIPTION	VAT EXCLUDED €
629034	ICOM IC-M25 HANDHELD VHF	142,80

ICOM IC-M35 HANDHELD FLOATING VHF

ICOM IC-M35 handheld VHF waterproof according to IPX7 standards, floating and provided with automatic regulation of sound quality: a back sub-microphone allows to regulate the volume level automatically thus avoiding a loss of communication. Provided with backlighting display, keypad and battery life indicator. Dual/Tri-Watch and AquaQuake™ functions allow the drainage of stagnant water from the speaker. Powered by the BP-252 Lithium-Ion rechargeable battery pack, wall charger, belt clip, strap for transport and owner's manual. 12 Volt power cable (optional), code 629035/S.

RF max power 6 W - min 1W.

3 years warranty.

CODE	DESCRIPTION	VAT EXCLUDED €
629035	ICOM IC-M35 handheld VHF	150,66
ACCESSORIES		
629035/S	Power cable with cigarette lighter plug for VHF ICOM IC-M35	18,67

ICOM IC-M93D FLOATING HANDHELD VHF EURO WITH DSC AND INTEGRATED GPS

ICOM IC-M93D EURO handheld VHF IPX7 submersible and floating with emergency LED light: in case of fall in the water, even if the receiver is turned off, an emergency red LED light is automatically activated as well as the display backlight for an easy recovery in case of low visibility conditions. Furthermore the **MOB auto set function** sets the nature of distress to "Man Overboard" allowing for an immediate distress call to be made by the operator (by pushing the Distress button). Lightweight and slim, with large backlight display, keypad and battery level status indicator. Dual/Tri-Watch and AquaQuake™ functions which allow the drainage of stagnant water from the speaker. Equipped with 1570 mAh Li-ion battery pack that allows up to **9 hours of battery operating life**. The **integrated GNSS receiver provides your location, bearing and speed** with fast-set up and pinpoint accuracy by using information from GPS, GLONASS, QZSS and SBAS (WAAS/EGNOS/MSAS). Using GNSS memory data, the IC-M93D EURO can fix positioning within 8 - 12 seconds after the radio is powered ON. Acquired position information can be used for DSC calls and navigation to waypoints.

DSC receiver continuously monitors CH70 and is independent of the main receiver and other operations. Complete with wall battery charger with Micro-B USB interface, belt clip, and owner's manual.

In compliance with ITU-R M.493-13 for DSC class D devices.

RF max power 5 W - min 1W.

3 years warranty.

CODE	DESCRIPTION	VAT EXCLUDED €
629032	ICOM IC-M93D handheld VHF	463,00

COBRA MARINE FIXED VHF

COBRA MARINE MR F 57 E FIXED MOUNT VHF

COBRA fixed mount MR F 57 E VHF provides full class D DCS capability, submersible according to IPX7 standards. Backlighting large LCD display and keypad. Automatic Radio Check and Rewind Say functions. Provided with microphone, kit for bracket and flush mount installation, NMEA 0183 interface for GPS and owner's manual.

RF max power 25 W - min 1W.

1) GENERAL SALE TERMS

The general sale terms can be modified or updated by G.F.N. due to new laws and regulations.

2) DESCRIPTIVE AND ILLUSTRATIVE PRODUCTS DESCRIPTIONS

The colours, pictures, descriptive information and technical features of the products included in this catalogue and website, are not part of the contract, but have only indicative value and cannot be binding for eventual claims.

G.F.N. reserves the right to make any change, at any time, to the products and to their technical features with the purpose to improve the production.

The possible publishing and use of photographic material of G.F.N.'s property must be authorised exclusively through a letter signed by the management.

3) ORDERS

The customer, sending the order, hereby implicitly accepts these terms of sale, and knows the characteristics, the proper use of the required products. To avoid misunderstandings, we recommend the customers to send written orders specifying:

1. Product code
2. Product description
3. Quantity

The terms proposed by our agents and representatives are subject to our approval. Agreements and arrangements with agents, brokers, and, generally, with GFN's staff, have value only of negotiations except seller's approval. GFN cannot be considered bound to what is included in the order's form if the same is not signed by the person entitled by the company. Subscriptions, signatures or initials of persons not entitled can only attest the terms of the proposals. Orders will be dispatched according to the availability of the moment, eventual backorder will be sent, unless otherwise ordered, as soon as possible, carriage forward or together with a new order according to the current price list.

Orders below € 100,00 net of any discounts VAT and fees, will be charged with fixed operating cost € 10,00.

All orders below € 100,00 net will be dispatched cash on delivery.

4) PRICES

Prices submitted by G.F.N. are the current ones at the moment of the order and can be updated until the moment of the shipment. They are intended to be net of taxes, extra fees (transport costs – package costs – insurance costs), custom duty and other financial costs. They are not binding and are communicated as informing purpose.

5) PACKING

The packing is charged at cost.

6) DELIVERY AND SHIPMENT TERMS

Goods are sold ex works delivery our warehouse in Campodarsego.

Goods travel at the Purchaser's risk who at the moment of shipment, assumes all risks relating to the goods sold.

Delivery terms are based on production and sale programs of the Seller and, therefore, are intended to be always indicative and never binding. The possible failure to meet the delivery deadlines will never be responsibility of the Seller, and won't give the right to the Purchaser to delay and/or suspend payments or ask for any compensation for damages. The Purchase quits every demand of essentiality of the delivery term.

All the shipments, in Italy by truck, if sent with our transport companies, are warranted by G.F.N., against risks of lost, damages, etc. To make this valid, at the moment of the receipt of the goods in case of missing, damaged, or opened items, the acceptance must be done "WITH RESERVE". After verification of the damage, the purchaser must notify the same, within 3 (THREE) days from receipt, enclosing copy of the signed document. The non-observance of the above instructions will cause the forfeiture of the right.

In case of shipment done by a transport company chosen by the Purchaser, goods travel at consignee's risk and in case of claims those must be done by the customer to his own forwarder.

G.F.N. has however the right not to fulfil the order, although it has been confirmed, if the Purchaser is insolvent in relation to other deliveries or towards other suppliers or in case he can no more offer financial guarantees.

7) PAYMENTS

Only in advance through bank transfer. Other different payment methods, subsequent to the first one, must be authorized and agreed through written agreement. In case of unpaid invoices or delayed payment default interests shall be charged since the day of default until the day of effective payment according to the rate stated by the Legislative Decree 231 of 09/10/2002.

8) PROPERTY RIGHTS

In any case of instalment payment, the sale is done at G.F.N.'s property right until the last instalment of the price has been paid in accordance with clauses 1523 and further amendments; the Purchaser, however, has to bear the risks from the time of goods delivery. In case of non-payment of one instalment whose amount exceeds the eighth part of the full price, in other words of two instalments of any amount, the agreement is intended to be automatically cancelled because of Purchaser's non - fulfilment, with the right to receive immediately the goods back, with further compensation in case of damages and claims. Until the total amount is paid, therefore, the purchaser cannot transfer the goods, without the seller's confirmation, otherwise the agreement will be cancelled with the same consequences as above explained.

In case the goods are subject to foreclosure or other legal actions by third parties, the purchaser has to inform the seller immediately, for his rights protection.

9) SAMPLES

The samples of goods are always debited.

10) RETURN OF PRODUCTS

Possible return of products have to be previously authorized by G.F.N.: the request must be submitted in writing by means of the special form (that can be downloaded from the reserved area of our web site) and have to include in detail the noticed defect as well as all relevant information contained in the purchase invoice.

If the return request is accepted, GFN will give a RMA number: this number must be written down on the delivery note **otherwise the return of products will be rejected.**

The return must be done within one month from the RMA receipt, carriage paid delivery. **The returned products must be sent in their original packing, have not to have been used or damaged.** As refund 10% of the goods value (min.€ 5,00) will be charged, and possible extra fees can be added in case of product's restoring.

Claims are not accepted after 8 days from the delivery date, moreover they have to be done only in case of real defects of the products. For this reason we strongly recommend our customer not to replace goods to final users without our authorization.

11) JURISDICTION AND APPLICABLE LAW

For any controversy the qualified Court is that of Padova and the buyer-seller relationship shall be exclusively regulated by the Italian law.
