SHOWER DRAINAGE KIT

Shower sump pump for use on boats with built-in sink, shower or tub, for pumping all water out of the drain and into the tank. It is compact and can be mounted either against the floor or the wall, in this case the two legs can be cut off. It has a built-in automatic bilge pump that will start operating as soon as the float switch senses water. Additionally, it features a filter, which can be easily serviced by removing the top transparent cover and a non-return valve at the outlet hose. The housing is made of resistant plastic and the lid of acrylic. The system has 3 inlet hoses (2 of 19,1mm 3/4") and 1 of 25,4mm (1") and 1 outlet hose with non-return valve for hose of 19,1 (3/4") and 25,4mm (1") diameter.

SEAFLO ELECTRIC TOILET

NEW

Compact

Regular

Toilet with electric discharge pump that can be mounted on either the right or left side, offering the convenience of an electric toilet without the need to modify the existing installation. The self-priming pump flushes the bowl, while the macerator pump grinds and evacuates waste. Ceramic bowl is easy to clean. Suitable for installation both above and below the waterline. The SEAFLO electric toilet is available with a compact bowl for tight spaces with lacquered white wooden seat or in a regular version with a "soft close" cushioned seat. Both the pump and the bowl are interchangeable with our toilets included in the catalog.

SEAFLO BIO-PACK

DESCALER FOR WASTE TANKS

Bio-Pack SEAFLO, 100% biodegradable, is recommended for the disaggregating treatment of chemical toilet waste tanks. Simply add Bio-Pack to the toilet tank, using enough water to disperse the contents of the package and cover the bottom of the tank. Wait 24 hours until the waste in the tank has completely decomposed, then it can be discharged directly. It thoroughly cleans and eliminates odors, is safe and reliable, leaves no residue, and contains no fungicides or formaldehyde.

440505 SEAFLO Bio-Pack 10 x 14 g.

NEW

12 V OIL CHANGE KIT

Technical features

Voltage	12 Volt
Consumption	2 Amp
Fuse	5 Amp
Load capacity	1.5 GPM – 5,6 l/min
Battery cable length	2 m
Suction hose length	2,4 m
Weight	1,69 Kg

600422

This system is able to efficiently and autonomously suck in motor oil, inboard and outboard oil directly from yachts, boats, campers, gardening machines etc. Equipped with a high-temperature resistant pump that can quickly and safely replace exhausted engine oil in a simple and cost-effective manner.

The kit consists of:

- Self-priming pump up to 1.5 m, can run dry, with thermal overload protection
- Battery terminals and on-off switch to make the pumping process quick and easy
- High-temperature resistant 14-liter portable bucket, fully assembled and secured to prevent wobbling and spilling, easy to empty and transport.
- Vent hole to prevent the barrel from expanding and being unable to pump oil
- Drain nozzle for easy pouring.

"SEAFLO" ELECTRIC PUMP FOR OIL TRANSFER

Electric pump with copper gears, thermally protected and sealed motor and **STAINLESS STEEL** shaft. Particularly suitable for transferring lubricating oils or viscous liquids with temperature below 60°C.

The pump can not run dry over 30 seconds.

Warning the pump is NOT suitable for transferring gasoline.

SUBMERSIBLE BILGE PUMPS

"SEAFLO" SUBMERSIBLE BILGE PUMP

High-performance submersible bilge pump, designed to ensure continuous and stable operation even in harsh environments. Snap-off filter base for easy installation and maintenance. Equipped with a practical handle for easy transportation. The pump comes complete with two fittings (1-1/8" and 1-1/4") and built-in check valve.

ACCESSORIES FOR BILGE PUMPS

CE

AUTOMATIC FLOATING LEVEL MERCURY-FREE SWITCH

Technical features

Voltage	12 Volt
Consumption	25 Amp
Dimensions	132,5 x 75,9 x 32,9h mm

600925 Automatic ABS floating level switch with MERCURY FREE mechanism. Suitable for bilge pumps or for alarm systems. The switch turns the pump on with a water level of 45/55 mm and turns it off when 20/25 mm level is reached.
Tested in compliance with European CE and RoHS regulations.

600926

600928

CE

AUTOMATIC FLOATING LEVEL MERCURY-FREE SWITCH

Automatic ABS floating level switch with MERCURY FREE mechanism and non-explosive protection. Suitable for bilge pumps or for alarm systems. The switch turns the pump on with a water level of 45/55 mm and turns it off when 20/25 mm level is reached.

Tested in compliance with European CE and RoHS regulations.

ELECTROMAGNETIC FLOAT SWITCH

CE

ELECTROMAGNETIC FLOATING SWITCH

Technical features

Consumption	25 Amp
Dimensions	55 x 95,4 x 81h mm

600930 This new electromagnetic float switch offers superior performance compared to traditional switches: the sensor is designed to activate magnetically, preventing mechanical failures during its function, and its enclosure does not allow large debris to reach the switch mechanism, preserving it from failure and breakage. Durable and easy to install with snap-on removal from the base.

"SEAFLO" AUTOMATIC LEVEL SWITCH

Technical features

Voltage	12/24 Volt
Maximum current absorption	20 Amps a 12 V 10 Amps a 24 V
Dimensions	92 x 22 x 63h mm

600943 "SEAFLO" automatic switch equipped with fully sealed sensors that detect the presence of water and automatically control a bilge pump up to 20 A at 12 V or 10 A at 24 V. It activates at a 41 mm fluid level and deactivates at a 9.5 mm fluid range. A three seconds delay prevents false starts.
Tested in compliance with European CE and RoHS regulations.

LEVER SWITCH FOR BILGE PUMPS

Technical features

Voltage	12/24 Volt
Function	ON - OFF
Length	57 mm
Height	51 mm
Building-in depth	34 mm

- 630592** Anodised light alloy control panel for electric bilge pumps with lever switch and light.

ROCKER SWITCH FOR BILGE PUMPS

Technical features

Voltage	12/24 Volt
Fuse amperage	15 Amp
Function	MAN - OFF - AUTO
Length	75 mm
Height	63 mm
Building-in depth	62 mm

- 630593** Control panel for electric bilge pumps with rocker switch with indicator light and 15 Amps thermal switch.

ROCKER SWITCH WITH ALARM FOR BILGE PUMPS

Control panel for electric bilge pumps with rocker switch, indicator light and alarm sound.

600784/24

The SEAFLO bilge pump is a next-generation automatic submersible pump, equipped with a non-return valve and an electronic sensor with capacitive coupling that detects the presence of water in the bilge and activates drainage, stopping automatically when the water is removed. The pump activates at a water level of 55 mm and shuts off at 20 mm (for items 600781 to 600782/24), while it activates at 65 mm and deactivates at 30 mm (for items 600783 to 600784/24). It includes a test area to verify proper functionality.
Easy to install thanks to a snap-off base design.
Certified **CE - RoHS** in compliance with **ISO 8846/8849** standards.

NEW

AUTOMATIC BILGE PUMP WITH ELECTROMAGNETIC FLOAT SWITCH

Automatic bilge pump **with built-in electromagnetic float switch**: unlike pumps with a mechanical switch which, after a period of use, lose their automatic function due to impurities getting stuck, this new sensor is designed to operate magnetically, avoiding mechanical failures during its function. The new design of the mechanism and the double filter eliminates any water leaks and seepage, ensuring greater filtering of impurities. Resistant and easy to install with snap-on removal from the base.

"SEAFLO" 53 DIAPHRAGM AUTOMATIC WATER PUMP

The 53 Series is the most robust water pump in the SEAFLO range. Ideal for systems with up to 5 simultaneous outlets. Designed to deliver a high flow rate of up to 7.0 GPM (26.5 LPM), it minimises start-stop cycles thanks to its five-chamber diaphragm, ensuring a quiet and constant water flow. Thanks to the presence of the by-pass valve, the pulsating effect is minimized and the pump is much more silent. Operation without an accumulator tank: no expansion tank required. Self-priming, it can run dry without damage. Equipped with quick-connect fittings and filter.
Water pressure pumps are not suitable for livewell systems or saltwater applications.
Tested in compliance with EC and RoHS regulations.

DIAPHRAGM AUTOCLAVE WITH AUTOMATIC REGULATION OF FLOW RATE AND PRESSURE

The SEAFLO Series 55 is a robust, versatile, and cost-effective 5-chamber diaphragm pump, designed to deliver high water flow with reduced cycling and reliable performance. Thanks to its heavy-duty construction and next-generation integrated pressure switch, it is ideal for applications requiring power, precision, and reliability. It features a built-in bypass system that minimizes pulsation, making the pump significantly quieter. Self-priming with automatic flow and pressure adjustment, reducing consumption, **it can run dry without damage.**

Autoclave pumps are not suitable for live fish tanks or salt water.

Tested in accordance with CE and RoHS regulations.

ACCESSORIES FOR PUMPS AND FRESH WATER PUMPS

EXPANSION VESSEL

Expansion vessel, the ideal device for any pump with pressure switch. It provides a constant water flow with the required quantity, eliminating the pulsating operation of pressure switch pumps. It increases the pump's and boiler's life thus reducing the water consumption. The internal diaphragm, with its absorbing shocks, stops the boring and noising pulsations of water flow and deliver a constant flow. It is pressurized at 0,7 bar - 10 PSI, but can be filled using the specific valve with a standard compressor, can be fitted to any pressure switch pump.

Technical features

Maximum pressure 125 PSI - 8,6 Bar

Fittings 1/2" MNPT

	Expansion vessel capacity lt	Dimensions mm	Weight g
600990	0,75	114 x 127 x 200	360

CE

EXPANSION VESSEL

Technical features

Tank's capacity 8 lt

Maximum pressure 87 PSI - 6 Bar

Fittings 3/4" MNPT

Dimensions Ø 200 x 331h mm

600995 Expansion tank used in constant pressure water supply systems to maintain stable system pressure and prevent fluctuations that may affect efficiency and equipment lifespan. It reduces frequent pump starts, thereby minimizing wear and energy consumption. Absorbs water hammer impact generated by the opening and closing of valves or pumps, protecting the entire system from damage. It allows a slight accumulation of water, enabling the pump to 'rest' during the night, reducing electricity consumption and extending the pump's service life.

SERIES 33 WASHING PUMP WITH ACCESSORIES KIT

The Wash Pump Kit is a reliable, high-performance solution for a wide range of cleaning tasks. This kit delivers a powerful flow rate of 3.0 GPM and features a built-in automatic switch: the pump is activated automatically by the spray gun. Easy to use, durable and perfect for marine applications. Made with chemical-resistant materials, such as EPDM valves and a Santoprene diaphragm, the pump ensures long-lasting performance even in harsh environments. The kit includes a filter, hose fittings, UV-resistant hose and a wash lance with automatic connection.

"SEAFLO" REMOVABLE AERATOR PUMP

NEW

Innovative new design aerator pump with quick-connect joint that allows the motor to be replaced and/or removed for maintenance cleaning without disconnecting the pump body or plumbing when replacing the pump. It fills the fish tank with clean water keeping fish healthy. The motor can be rotated 360° and is compatible with most installation requirements thanks to its modular structure. The pump is supplied complete with a non-return valve and two hose fittings, one straight and one 90°.

600580 Spare non-return valve for pumps from code 600775 to 600779/24.

SOLAR PANELS

"SEAFLO" SOLAR BATTERY CHARGER

NEW

Ultra-lightweight and slim solar charger, easy to carry and install. Made of ETFE material, waterproof, with one-piece molding technology that resists breakage, cracks, and deformation. High energy conversion efficiency with overcharge and reverse polarity protection for safe and reliable charging.

Ideal for keeping the batteries of boats, RVs, and other vehicles charged during long periods of inactivity. Maintenance-free and ready to use wherever portable solar energy is needed.

Supplied complete with 4 suction cups for mounting, battery clamps, and a cigarette lighter plug for charging or power supply.

CE

Technical Features

Waterproofness	IP67
Power tolerance range	± 5%
Solar cell efficiency	23%
Maximum power voltage	16,2 Volt ±10%
Operating Temperature Range	from -10°C to +65°C

	Peak power Watt	Short circuit current Amp	Open circuit voltage Volts	Max power current Amp	Dimensions cm	Weight kg

LIGHTS FOR BOATS UP TO 12 METERS

NEW "SEAFLO" LED PORTABLE NAVIGATION LIGHT KIT

Technical features

Led numbers	1
Consumption	1 x 0,2 W
Luminous intensity	20 Lumen

640315 Portable set of LED navigation lights composed of red/green bow light and white all-round pole light for small boats and tenders. Battery-powered with ABS and PC housing in **water resistant IP65**, anti-oxidation, impact resistant and corrosion-resistant material. Uses 3 x AAA batteries (item no. 641256 o 641268) not included. **Tested in accordance with EU CE and RoHS regulations.**

NEW "SEAFLO" LED ALL-ROUND POLE LIGHT

Technical features

Power	12 Volt
Height	99 mm
Base	63 mm
Visibility	2NM
Bulb type	LED
Mounting	Fixed mount
Material	Plastic

642206 All-around 360° LED anchor light, **IP65 waterproof**, can cope with harsh weather conditions and avoid short circuits. Lightweight, corrosion-resistant and has a long service life.

NAVIGATION LIGHTS

LIGHTS FOR BOATS UP TO 12 METERS

"SEAFLO" COMPACT LED NAVIGATION LIGHTS UP TO 12 MT

Navigation lights for use on boats up to 12 meters. Advanced LED technology, energy-efficient and long service life. **IP67 waterproof**, corrosion resistant and UV resistant materials. Visibility up to 2 nautical miles. Provided complete with LED bulb.

Tested in accordance with EU CE and RoHS regulations.

Fixing base dimensions	100 x 51 mm

- 142416** Reinforced nylon rod holder with rod clamp. Swivels 360° horizontally and 90° vertically with quick and removable coupling system at the fixing base.

BASE

- 142416/1** Nylon recessed base for rod holder item no. 142416.

GENERAL SALE TERMS

1) GENERAL SALE TERMS

The general sale terms can be modified or updated by G.F.N. due to new laws and regulations.

2) DESCRIPTIVE AND ILLUSTRATIVE PRODUCTS DESCRIPTIONS

The colours, pictures, descriptive information and technical features of the products included in this catalogue and website, are not part of the contract, but have only indicative value and cannot be binding for eventual claims.

G.F.N. reserves the right to make any change, at any time, to the products and to their technical features with the purpose to improve the production.

The possible publishing and use of photographic material of G.F.N.'s property must be authorised exclusively through a letter signed by the management.

3) ORDERS

The customer, sending the order, hereby implicitly accepts these terms of sale, and knows the characteristics, the proper use of the required products. To avoid misunderstandings, we recommend the customers to send written orders specifying:

1. Product code
2. Product description
3. Quantity

The terms proposed by our agents and representatives are subject to our approval. Agreements and arrangements with agents, brokers, and, generally, with GFN's staff, have value only of negotiations except seller's approval. GFN cannot be considered bound to what is included in the order's form if the same is not signed by the person entitled by the company. Subscriptions, signatures or initials of persons not entitled can only attest the terms of the proposals. Orders will be dispatched according to the availability of the moment, eventual backorder will be sent, unless otherwise ordered, as soon as possible, carriage forward or together with a new order according to the current price list.

Orders below € 100,00 net of any discounts VAT and fees, will be charged with fixed operating cost € 10,00.

All orders below € 100,00 net will be dispatched cash on delivery.

4) PRICES

Prices submitted by G.F.N. are the current ones at the moment of the order and can be updated until the moment of the shipment. They are intended to be net of taxes, extra fees (transport costs – package costs – insurance costs), custom duty and other financial costs. They are not binding and are communicated as informing purpose.

5) PACKING

The packing is charged at cost.

6) DELIVERY AND SHIPMENT TERMS

Goods are sold ex works delivery our warehouse in Campodarsego.

Goods travel at the Purchaser's risk who at the moment of shipment, assumes all risks relating to the goods sold.

Delivery terms are based on production and sale programs of the Seller and, therefore, are intended to be always indicative and never binding. The possible failure to meet the delivery deadlines will never be responsibility of the Seller, and won't give the right to the Purchaser to delay and/or suspend payments or ask for any compensation for damages. The Purchase quits every demand of essentiality of the delivery term.

All the shipments, in Italy by truck, if sent with our transport companies, are warranted by G.F.N., against risks of lost, damages, etc. To make this valid, at the moment of the receipt of the goods in case of missing, damaged, or opened items, the acceptance must be done "WITH RESERVE". After verification of the damage, the purchaser must notify the same, within 3 (THREE) days from receipt, enclosing copy of the signed document. The non-observance of the above instructions will cause the forfeiture of the right.

In case of shipment done by a transport company chosen by the Purchaser, goods travel at consignee's risk and in case of claims those must be done by the customer to his own forwarder.

G.F.N. has however the right not to fulfil the order, although it has been confirmed, if the Purchaser is insolvent in relation to other deliveries or towards other suppliers or in case he can no more offer financial guarantees.

7) PAYMENTS

Only in advance through bank transfer. Other different payment methods, subsequent to the first one, must be authorized and agreed through written agreement. In case of unpaid invoices or delayed payment default interests shall be charged since the day of default until the day of effective payment according to the rate stated by the Legislative Decree 231 of 09/10/2002.

Banks:

INTESA SAN PAOLO - Agency of Campodarsego

Via Antoniana, 220/D - 35011 CAMPODARSEGO (PD)

IBAN: IT 96 Y 02008 62420 000040248744

Code BIC - SWIFT: UNCRITM1S35

8) PROPERTY RIGHTS

In any case of instalment payment, the sale is done at G.F.N.'s property right until the last instalment of the price has been paid in accordance with clauses 1523 and further amendments; the Purchaser, however, has to bear the risks from the time of goods delivery. In case of non-payment of one instalment whose amount exceeds the eighth part of the full price, in other words of two instalments of any amount, the agreement is intended to be automatically cancelled because of Purchaser's non - fulfilment, with the right to receive immediately the goods back, with further compensation in case of damages and claims. Until the total amount is paid, therefore, the purchaser cannot transfer the goods, without the seller's confirmation, otherwise the agreement will be cancelled with the same consequences as above explained.

In case the goods are subject to foreclosure or other legal actions by third parties, the purchaser has to inform the seller immediately, for his rights protection.

9) SAMPLES

The samples of goods are always debited.

10) RETURN OF PRODUCTS

Possible return of products have to be previously authorized by G.F.N.: the request must be submitted in writing by means of the special form (that can be downloaded from the reserved area of our web site) and have to include in detail the noticed defect as well as all relevant information contained in the purchase invoice.

If the return request is accepted, GFN will give a RMA number: this number must be written down on the delivery note **otherwise the return of products will be rejected.**

The return must be done within one month from the RMA receipt, carriage paid delivery. **The returned products must be sent in their original packing, have not to have been used or damaged.** As refund 10% of the goods value (min.€ 5,00) will be charged, and possible extra fees can be added in case of product's restoring.

Claims are not accepted after 8 days from the delivery date, moreover they have to be done only in case of real defects of the products. For this reason we strongly recommend our customer not to replace goods to final users without our authorization.

11) JURISDICTION AND APPLICABLE LAW

For any controversy the qualified Court is that of Padova and the buyer-seller relationship shall be exclusively regulated by the Italian law.
