

SPINERA SKI TUBE

Welcome to the Watersports world of **Spinera** line inflatable products! They were born from the idea of combining entertainment for children and for adults, and designed to be the perfect solution for every watersport fan. The bright colors, the accurate design and the funny shapes attract the attention of the kids, while the resistance of materials, thanks to more than 20 years of know-how, satisfy the safety needs of the parents. Manufactured in UV rays resistant electrowelded PVC, with quick inflating and deflating valve.

"WILD BOB" SKI TUBE

NEW

Technical features

External diameter	137 cm
PVC thickness	0,6 mm
Polyester cover density	420D
